FINE AUTOMOBILES | CREATING A MASTERPIECE

CHELSEA TRUCK COMPANY

CHELSEA DEFENDER

As the consumer looks for increasingly diverse ways to express individuality, A. Kahn Design creates something truly unique and welcomes the iconic Land Rover Defender into its Chelsea Truck Company brand.

An unlikely candidate for the Kahn treatment, the off road vehicle undergoes a dramatic conversion to applause. The Kahn Defender sports a wider track, special Kahn Defender wheels (available in 16" or 18") and a wide arch package designed to look more masculine and rugged than the base car. The arches, made from lightweight composite, allow the widening of the track and ensure a mammoth visual impact never before witnessed on a Defender.

A. Kahn Design treats the interior to a full overhaul, including trim, seats and dials. True to the bespoke nature of the project, various colours of quilted Nappa leather, Alcantara and trim are available. Harris Tweed - think 'object of desire' as the champagne of all fabric - is offered as an interior option. Paris-Dakar-inspired racing seats, not for the faint-hearted, are also available on cue. The Kahn Defender formidably fuses the Chelsea Truck Company aesthetic with the core values of the vehicle creating a sensational car guaranteed to turn heads.
